CalRecycle Grant manager: Carla Repucci

Project Summary: Burney-Johnson Park Waste Cleanup on Fruit Growers Supply Company Property. Current and past use consists of forest land management involving periodic harvesting operations. Most of the area is considered lava plateaus with ponderosa pine and mixed conifer forests between 3,000 to 3,400 feet elevation. Seasonal dirt access roads are present on the parcels. Wastes are scattered throughout parcels along these roads.

The Fall River Resource Conservation District understands the importance of a clean environment for tree protection and growth. The Fall River RCD would like to help Fruit Growers with cleaning up these scattered garbage sites throughout their timber property.
